MEMORANDUM FOR THE FILE

1. On 28 December 1954, [redacted] called and stated that there was an individual in [redacted] whom he and his associates felt would be ideal material for ARTICHOKE treatment and he wondered if that could be arranged. The writer informed [redacted] the matter had been considered previously and all decisions had been that this treatment would not be given in the United States and certainly not in [redacted] then stated that the individual would be going to [redacted] shortly and could be made available up there and wondered if a possibility existed that it could be handled in this area . The writer gave no definite answer but stated the answer probably would be negative. The writer informed him he would take the matter up with [redacted] upon [redacted] return from leave.
